nitrobit update server - Editions

The nitrobit update server is available in three different editions:

- **Small Business Edition**
Provides updates from windowsupdate.com and optionally from the nitrobit update channel for up to 50 clients.
- **Enterprise Edition**
Provides updates for an unlimited number of clients. Can synchronize with Microsoft Windows Update Servers (WSUS) or further nitrobit update servers.
- **Satellite Server Edition**
This branch server is intended to save bandwidth to your remote locations. Can synchronize with a Microsoft Windows Update Server (WSUS) or nitrobit update server.

License needs

One license is needed for every computer where the nitrobit update server is running. Small Business Server licenses entitle to connect up to 50 clients. For all other server editions, the number of clients is not limited.

Support, Upgrade and Maintenance

The yearly license fee entitles to receive support and all product updates.

Technical Support

Technical support has a maximum response time of 5 working days. Communication is made by e-mail or web. The support covers installation problems and software failures, further support services of analytiq consulting gmbh are voluntary. A hotfix may be provided to solve software failures. Support is limited to 2 contact persons on the customer side. The customer accepts that analytiq consulting gmbh cannot guarantee support calls to succeed. The subscription right is valid for the whole license period.
